

the Plaedian 7 levels of Life development + their 7 sub stages

(the evolving consciousness cant skip any stages however can have peak experiences ie. pretty much like the Stages/States from Ken Wilber)

1-3 very material life's (senses, reasoning, limited life)

3-5 semi-material (knowledge and logic, advanced technology and life)

6-7 spiritual (manifestation to a spirit being through the accumulated wisdom)

ONE Primary Life (using instincts and primitive skills)

1. Primary Life

(not much knowledge at all) Activities: Walk, Eat, Shelter, Protection etc.
make take several lifetimes

2. Primary Thinking Intellect

make take several lifetimes

3. Primary thinking of Reason, Self conscious. (I do this then Im safe etc.)

make take several lifetimes

4. Primary Exercise of Intellect and Spiritual Force

5. Primary Reasonable Actions

6. Primary will caused thinking

7. Reason condition leading of the life (take care of himself)

TWO Reasoning Life (using thinking and self awareness)

1. Primary Development of Reason

2. The effective realisation of reason

3. Primary acknowledgement in cognition of higher influences

4. Belief of higher influences

5. Belief of higher forces

6. Primary Recognition of Reality (telepathy etc., Average earth being is on this phase)

7. Primary knowledge and wisdom

THREE Intellect life (using conclusions and logic)

1. High development of the intellect (high technology etc.) and Second realisation of spiritual forces (New Age movement etc.).
2. Realisation and exercise of knowledge, (truth and wisdom, belief systems breaking down) (present level of the educated earth beings, scientist etc.) (the need to feed the spiritual knowledge)
3. The first realisation of wisdom and knowledge (Psychics, Researchers like Tesla etc.)
4. The acknowledgement and utilisation of nature laws. (Logic in nature's creation, like gravity>Levitation, Planet cycles etc. hyper-technology)
5. Natural Exercise of Wisdom and acknowledging cognition of spiritual forces (absolute knowledge (not belief))
6. Life in knowing about wisdom (Truth, Logic and Wisdom)
7. Primary cognition of Reality as an Absolute (truths, basic matrix of nature) (present phase of a FEW researchers on the earth)

FOUR Real Life

1. Clear knowledge about the reality as an absolute
2. Cognition of Spiritual Knowledge and Truths (a spiritual being taking place, using the spirits intelligence, using spiritual senses)
3. Utilisation of spiritual knowledge and senses (sleep state clear, luckiness)
4. Cognition of the reality of the creation and her laws/logic (actual knowledge of the life force)
5. Living from the creational laws/logic, purification of the spirit and the intellect
6. Cognition of the true obligation and force of the spirit, complete break down of acceptance and beliefs structures. (far less use of the material senses, pure knowledge, far less emotional, fear etc..) Pleiadian average phase**
7. ??

FIVE Creational Life (still physical life time, but longer life span:)

1. Control of Living forms (Create new life forms, Androids, Procreation of Spirit)

2. Construction apparatus living creatures
3. Spiritual development of forces for control of material and organic forms of life
4. Will condition of master of life
5. Position of Recognition (reminisce of earlier life's etc.)
6. King of Wisdom (a typical Pleiadian Ishuish type, the beginning of constant creational harmony experience, top level of physical phase)
7. Cognition of Spiritual Peace (living in spiritual peace, constant universal love force experience)

SIX Spiritual Life

1. Acknowledgement of realisation of the spiritual peace, the universal love and creational harmony (meditational bliss, no sleep, thousand of years life span)
2. Living in pure spiritual forms (no material forms)
3. Spiritual creations (helping lower life forms, spirit guides)
4. Disembodiment of the spirit from organic matter (no need for material senses, and the body, no death, the cycle stop)
5. First Spiritual Existence (at minimum 5-10 000 yrs life span, physical body fading)
6. The Final Spiritual Existence (coming together = collective consciousness, social complexes i.e. RA, Cassiopeans etc., somewhat the last stage to communicate with earth beings (lower material life forms) before completely de-materialised and unified with the creational force)
7. Pass over into creation (moving towards perfection, participating of the working of creation, out of touch of any material existence- [therefore narrowband communication from the RA/Cassiopeans])

SEVEN Creations life (Twilight sleep, Consciousness merged with the creation, function to create an UR-universe)

1-7 Twilight sleep, Consciousness merged with the creation, function to create an UR-universe. Stages are difficult to separate since they are very unified themselves. Long life Spans (Millions of years at least).

Concepts:

After death

Spirit leaves the body > Fine matter world (other side, heaven, 5th density, another dimension, etc.) A state of consciousness like the sleep state, no input, experience, only wisdom taking forward etc.

Will not be contacted, disturbed etc. (sleep state)

Reincarnation (re-entering into the coarse-world)

152 yrs before it re-enter. Generally in the family.

Short life (material life) will come back faster.

The more you learned in the coarse world the longer it will take for re-entering

Earth position determines in some cases very fast re-entering periods (like from 1970-now)

Re-entering can then be as fast as one day

7 stages of growth before the the spirit returns in the matter

Note! The spirit is planetary localised, spirits stick to the same planet.

Chromosomes/Genes during pregnancy

Determines character information, age and not connected to intelligence.

Brain forms during pregnancy due to the spirits involvement (i.e. information download)

Acids in the brain= a copy of the spirit's information.
